**Election/Restriction**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-14, drawn to a system comprising an intake manifold; a control device; at least one container; and an out let, classified in Class 134, subclass 94.1.

Group II: Claims 15-23, drawn to a method for cleaning an evaporator core in an air handling system, classified in Class 134, subclass 36.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as apparatus and process for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (M.P.E.P. § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus such as without a container or the apparatus as claimed can be used to practice another and materially different process such as spraying liquid on an object.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, have acquired a separate status in the art because of their recognized divergent subject matter, the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Ms. Anne M. Kornbau on May 30, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1746

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

*Joint Inventors*

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
